

**USMC**

**SMARTTRACK**  
**THE DIGITAL ARMS ROOM**

***If proper  
accountability of your sensitive  
items or  
assets is a challenge,  
look no further! SMARTRACKUSMC®  
“The Digital Arms Room and Asset  
Tracker”  
is the answer!***

***[www.digitalarmsroom.com](http://www.digitalarmsroom.com)***

# ***SmarTrack IS!***

***SmarTrack Uses CAC cards, PIN's IUID and 1D bar-coding to inventory, track, trace, account, maintain and issue and receive equipment for all arms room property. The system produces approved NAVMC forms and publications for each transaction thus providing an electronic copy of each and every system transaction.***

# ***SmarTrack Customer Base***

Al,

I can't thank you enough for all the assistance and time that you have given me. You and your system has made my life so much easier. Any time there was a question about the location of a piece of equipment, I had an answer. I can't imagine how much trouble Smartrack has saved me. Thank you.

Thanks again for making my life easy !

Very respectfully,  
SGT Bradley.J.Hoagland

## Who We Are

- Based in Raleigh, NC
- Small Disabled Veteran Owned Business
- Mainly a custom software design firm

## What We Do

- Design Custom Effective Software and Hardware Solutions
- Specialize in Asset Management
- We design for the marine by the marine, our systems adapt to the marine and not vice versa

# Fundamental Issue

**How can a commander?**

**Assign individual and command responsibility for equipment using current technologies such as CAC Cards and IUID tagging to enhance:**

- **Accountability**
- **Life Cycle Management**
- **Asset Management**
- **Maintenance Tracking**
- **Inventory and Management Control**
- **Reduce e and Eliminate Paper Transactions**
- **Increase Training and Personal Time**
- **Add Value to Every Unit Member**
- **Provide Portability and Flexibility**

# Challenge

## UNIT ARMS ROOMS

Paper Based

1 Soldier

50,000  
TRANSACTIONS

- **Slow & Inefficient**
- **Inaccurate – lost equipment**
- **Not Responsive (Joint/Allied OPNS)**
- **Lacks standardization**
- **No connectivity**
- **“Antiquated”**

300  
Customers

10,000

# What's Included

## Hardware

- Laptop
- Duplex Printer
- Touch Monitor
- Wireless Scanner
- Signature Pad
- CAC Card Reader
- UPS
- A/V Cart
- Back Pack
- Back Up Drive

## Software

- **Windows XP/Vista/7/8**
- **SMARTRACK 3.0**
- **SQL Server**

## Installation & Training

- **1 on 1 Instruction**
- **1 week training on site**
- **Data Migration**
- **Bar Coding**
- **Installation**

\* See vendor for multi purchase discounts

# Product Support

- 3 Year 24 hour replacement for all hardware
- 24/7 tech support
- No need for army maintenance and support, it's included
- All items adjust to local electricity

# Unique Identification

## SmarTrack reads:

- 1D Bar Codes
- 2D Bar Codes
- Data Matrix Tags
- DOD IUID tags

**Williams Software can provide DoD approved IUID tags, application of tags, reporting to WAWF and tag verification for all equipment at a cost of \$2 per metal photo tag. This will result in 100 percent compliance with the IUID initiative required by DoD. These tags do not come standard. Units may also use local assets for tag production. Average cost per arms room is \$2,000**

SmartTrack Barcodes : SmartTrack bar codes are double polyester, double clear coat with a high resin adhesive. They come on a roll of 5,000 and each bar code is uniquely numbered by Williams Software. Each surface is cleaned with a cleaning solution before the label is applied. Then an overcoat is sprayed over the bar code to increase the label durability. SmartTrack bar codes are included with the SmartTrack system purchase.

**M9 Pistol with SmartTrack Label**

**SmartTrack Bar Codes**

**TAC Light with SmartTrack Label**

**M4 Rifle with SmartTrack Label**

**Scope with SmartTrack Label**

**TESA IUID Labels:** TESA IUID labels are a special durable label. They are designed and printed by many defense contracting companies or may already exist on government equipment. Each serial numbered item is assigned a construct 1 or 2 UID number that is unique to that piece of equipment. The IUID information is reported to the Wide Area Work Flow WAWF and the labels are then shipped to the property custodian and applied to each piece of equipment. Each surface is cleaned with a cleaning solution before the label is applied. An overcoat is then sprayed over the label to increase the durability. IUID Labels are not included with the SmarTrack system purchase. Williams Software does offer IUID services and solutions.

**Schedule Number: SYNEX GS-35F-0143R**

**Part #: SMARTRACK**

**OR CALL**

**Williams Software Associates Corp.**

**910 263-1933 or e-mail [sales@wsacorp.us](mailto:sales@wsacorp.us)**

# Product Features

# Heads Up Display

- **Expired ETS and DEROS/PCS**
- **Overdue maintenance items**
- **Ammo storage expiration**
- **Maximum rounds fired notification (80-100 percent)**
- **Readiness rating alerts for non-mission capable systems**
- **Required reports and inspections**
- **Overdue Items Reports**

# Master Authorization List

- Core elements of data base, visual status icons, real time decision making tool
- Visual indication of what is: assigned, un-assigned, checked out, non-mission capable, and round count status
- Facilitates drag and drop changes
- Prevents double assignments
- Prevents the assignment of non-mission capable equipment
- Bundles equipment (connects machine gun, spare barrels, spare bags, scopes and aiming device as a set)

# Property Book

- **Accurate property book of all arms room equipment down to assigned level by team, squad, platoon and company to include SL3 and non standard items**
- **Prints property books for leaders at each level showing what they their unit is responsible for**
- **Includes quantity authorized, on hand, LIN, SUB LIN, NSN, Nomenclature, Type to include POW's**

# Personnel Page

- Fills authorized personnel database with DoD CAC cards to include signature
- Allows drag and drop assignment of personnel to teams, squads, sections and platoons
- Identifies do not issue personnel (court marshal, suicide watch etc) from drawing equipment
- Allows assignment of attached personnel
- Prints personnel reports by team through company level

## Issue & Turn In

- CAC Card issue with PIN Verification
- Prevents issue of non mission capable equipment
- Prevents issue of equipment to the wrong individual
- Prevents issue to Lautenberg Act personnel
- Generates instantaneous NAVMC forms NAV 10576/10520/1186 and Armory Commitment Sheets
- Eliminates armorer transcription errors
- Speeds the issue & turn-in
- Provides historical equipment data
- Tracks Rounds fired/Rounds remaining

## Checked Out Items Page

- **Real time checked out items tracking**
- **Shows who equipment is assigned to, who actually checked it out and for what reason equipment was checked out**
- **Query by reason, unit (team- company), by person and by type of weapon**
- **Constantly updates equipment counts for all items on property book**

# Maintenance

- Automates scheduled maintenance tasks
- Maintains a real-time NAVMC 10525/1018/10925 for the user
- Tracks round counts and populates counts for all rounds fired and maintenance tasks
- Maintains maintenance history records for all equipment
- Notifies armorer when gauging and calibration is due
- Notifies armorer when organizational and user maintenance is due

# Inventory/CMR

- Automated daily, monthly, property book and command directed inventory
- Provides for 100 percent accuracy of all arms room equipment
- Conduct inventories from multiple locations
- Verifies inspectors minimum rank and ensures non consecutive monthly inspector
- Inventory by type, status, location and more
- Instant comparison to master data base
- Conduct cyclic, percentage and other types of inventory

## Reports and Queries

- **Facilitates chain of command reporting**
- **Non-mission capable reports for all equipment. Report provides dead lined items, where they are, how long they have been in maintenance, when they are due, and reason**
- **Query weapons systems readiness reports for all equipment**
- **Instantly prints weapons cards through drag and drop function**

# Commanders Reports Sampler

Report Name	Use
Company Equipment Quick Count	Snap Shot of all unit equipment, what should and should not be in the arms room
Company Personnel Report	Lists all authorized users, 90 day ETS, PCS notification, and do not issue personnel
Condensed MAL	Shows required commanders information to comply with regulations
Arms Room Property Book Listing	Shows all equipment similar to PBUSE with additional info such as a rack/butt number and actual number currently in arms room
Monthly Serial Number Inventory	Lists all equipment on property book, items scanned, items checked out, reason out and whom currently has the equipment
Ammunition Storage Report	Lists all ammo being temporarily stored, with info on who turned ammo in and out of arms room
Physical Security Inspection Report	Displays physical security inspection results
Issued and returned Items Reports	Displays all information by unit, sub unit or individual on all equipment checked in and out of the arms room in real time
Deadline Deficiency Report	Lists all deadline items and the deadline deficiencies for each item
Deadline Downtime Report	Lists all deadline items and provides information on how long items are dead lined and shows all ordered parts to include due in info
Maintenance Readiness Report	Provides readiness ratings for all equipment types
Scheduled Maintenance Report	Allows armorer to query scheduled maintenance
Unqualified and untrained reports	Provides information on all unqualified individuals and crews

# Training Statistics

- **Track qualification, hits, qualification levels, next qualification date, by individual and crew served equipment**
- **Provides qualification reports by team through company**
- **Assists leaders with proper personnel assignment**
- **Query upcoming qualification requirements**

# Ammo Storage

- Provides inventory ability for temporary storage of ammo
- Produces appropriate paperwork for the transaction
- Automatic notification of past due storage dates

# Key and Lock Control

- **Reminder of inspection dates**
- **Reminder of key and lock rotation dates**
- **Provides digital key control register**

# Forms and Publications Library

- **Supplies local drive and web based static and fill-in forms that apply to the arms room**
- **Contains all Regulations, Technical Manual and Field Manuals that apply to the arms room**

## Self Inspection

- Prepares unit arms rooms for internal and external inspections
- Inspection forms can be tailored to specific unit

# Kit Design

- **Design kits**
- **Assign kits**
- **Allows units to design kit for individual and crew served weapons, optics and lasers**
- **Allows units to design kits for mission specific purposes**
- **Design BII tracking kits**
- **Allows you to track non property book tracked and non serialized valuable equipment**

## Bulk Items

- **Track bulk items included or not included on property book**
- **Inventory and track bulk issue items separately from property book items**
- **Improve accountability of the little things that degrade the mission when missing**

# Packing List Design

- **Design shipping and packing lists on SF Form 701**
- **Design shipping containers, boxes within shipping containers, scan all items into boxes and assign master barcodes per box**
- **Auto produce SF Form 701 for each box and overall container**
- **Inventory by box and container**
- **Produce property book listing for each box and container**

## Due Date Notification

- **System tracks each items return date**
- **System notifies clerk of any items not returned on time**
- **System alerts during start up and shut down**

# Portability

- **System fits in back pack, belly load printer in plane**
- **System has been deployed to Iraq and Afghanistan on several deployments with multiple systems on their second rotation**

# Additional Info

# Marine Activities

<u>Tested Activities</u>	<u>Results</u>
1. CRANE INVENTORY, AUTOMATED	Inventory time reduced by two thirds
2. Conducted the issue and turn in of 67 Marines/ 1422 items of equipment using SmarTrack and Legacy requirements	<p>All equipment was issued and turned in in less than 53 minutes.</p> <p>100 percent accuracy was recorded</p> <p>System identified personnel that have not been assigned equipment</p> <p>Some Marines did not know CAC PIN numbers</p>
3. Tested use of ERO and EROSL	Marines Estimate a time savings of 80 percent per ERO/EROSL
4. Tested Effectiveness of IUID tags	Tags work fine when not damaged/Need a tag replacement process
5. Tested Armory Commitment Sheet Process	Marines estimate a time savings of 99 percent; Was able to produce an un-scheduled Armory Commitment Sheet
6. Personnel Auto Fill	Added 136 CI personnel in less than 2 seconds
7. The NAVMC 10576 & NAVMC 10520 preparation	Was able to produce Ordnance Custody Receipts and the Receipt for Individual Weapons and Accessories electronically saving countless Marine hours
8. IOC conducted an Issue of 4-8 pieces of equipment to Class 3-09 on 6 April 2009	Initial issue took 1hr 30 minutes while providing the Accurate Reports for the Commander; Batch Turn in of Equipment took less 30 minutes
